ANNEX III

SCHEDULE OF THE UNITED STATES

HEADNOTES

1. Commitments in these sub-sectors under Chapter 17 (Financial Services) are undertaken subject to the limitations and conditions set forth in these headnotes and in the Schedule below.
2. National treatment commitments in these sub-sectors are subject to the following limitations:
 - (a) National treatment with respect to banking will be provided based upon the foreign bank's "home state" in the United States, as that term is defined under the *International Banking Act*, when that Act is applicable. A domestic bank subsidiary of a foreign firm will have its own "home state", and national treatment will be provided based upon the subsidiary's home state, as determined under applicable law.¹
 - (b) National treatment with respect to insurance financial institutions will be provided according to a non-U.S. insurance financial institution's state of domicile, when applicable, in the United States. State of domicile is defined by individual states, and is generally the state in which an insurer either is incorporated, is organized or maintains its principal office in the United States.
3. To clarify the U.S. commitment with respect to Article 17.5 (Market Access), juridical persons supplying banking or other financial services (excluding insurance) and constituted under the laws of the United States are subject to non-discriminatory limitations on juridical form.²
4. For entries in Section A, in accordance with Article 17.10.1(a) (Non-Conforming Measures), and subject to Article 17.10.1(c) (Non-Conforming Measures), the Articles

¹ Foreign banking organizations are generally subject to geographic and other limitations in the United States on a national treatment basis. If the limitations do not conform to national treatment, they have been listed as non-conforming measures. For purposes of illustration, under this approach, the following situation does not accord national treatment and would therefore be listed as a non-conforming measure: a foreign bank from a particular home state is accorded less favorable treatment than that accorded to a domestic bank from that state with respect to expansion by branching. For greater certainty, a bank that is incorporated in the United States, including a U.S. bank subsidiary of a foreign bank, is considered a "domestic bank" and not a "foreign bank". The referenced measures include the relevant comprehensive definitions.

² For example, partnerships and sole proprietorships are generally not acceptable juridical forms for depository financial institutions in the United States. This headnote is not itself intended to affect, or otherwise limit, a choice by a financial institution of the other Party between branches or subsidiaries.

specified in the **Obligations Concerned** element of an entry do not apply to the non-conforming aspects of the law, regulation or other measure identified in the **Measures** element of that entry. In addition, **Description** provides a general, non-binding description of the measure for which the entry is made.

5. For entries in Section B, in accordance with Article 17.10.2 (Non-Conforming Measures), the articles of this Agreement specified in the **Obligations Concerned** element of an entry do not apply to the sectors, sub-sectors and activities identified in the **Description** element of that entry.

6. Article 17.10.1(c) (Non-Conforming Measures) shall not apply to non-conforming measures relating to Article 17.5.1(e) (Market Access).
